

6/V-43

Dear Bolust [Libe Bolst]*

On 23 April and 5 May, I received the parcels from you. We thank you very much for that. Today I'll write a very short letter to you because I have little time, but Ninka Kopertowska, who has for a few days exemption from work because of illness, will also write a long letter with me. You pack the parcels very well and everything is all right. Both toothpaste and Aspirin were good. Ninka takes Aspirin constantly during her illness. However, she has no appetite. She actually feels better now. Today, I've given her the lemon with honey. By reading her letter, you will find out how we've spent Easter. We've got no news to report. Spring is wonderful. We thank you all for the greetings. I would like to ask you if you could send all the things that Ninka Koperta had been asking for using expedited parcel. Whatever you will send, please select "expedited" parcels, as the parents of Cisia do, the supplement would not cost so many pennies. I hope you will fulfil our request - and remember that we are young and spring is wonderful!

I kiss you strongly.

J

P.S.

I would like to share the greetings with Wies Cz. and other acquaintances.

*Underlined Li and st - creat the word List (in Polish) = Letter (in English)
